

Hardware Striking Tools 2016

FISKARS®

LESS SHOCK. MORE AWE.

The industry's best shock control system.

IsoCore™ Shock Control System

Patented design absorbs strike shock and vibration, reducing the punishment your body takes.

3x
LESS SHOCK

Insulation sleeve

Captures the initial shock caused by the strike before it can reach the user.

Dual-layer handle

A specially formulated combination of insulating materials absorbs lingering vibration.

Performance handle design

Optimized design maximizes comfort and control while providing versatile hand positioning to let you work the way you want to work.

Intelligent texture pattern

Strategically varied texture features large dimples where fingers rest for maximum grip and small dimples where the palm rests to help prevent blisters. Patent-pending.

Versatile grip positions

Contoured Softgrip® handle

Sculpted handle profile to fit the natural shape of your hand comfortably.

Sure-grip handle flare

Keeps the tool firmly in hand when swinging with maximum force.

Extended precision grip

Lets you choke up for added control when making precision strikes.

IsoCore™ Shock Control System

General, Framing & Finishing Hammers

Smooth & Milled strike face options

Magnetic nail-starter

Sound-dampening insert (dampens irritating ringing)

Rip claw

IsoCore™ Shock Control System

Club, Sledge, Pick & Maul

Dual-utility head

Wedged demolition and extra-large driving head

5X more destructive

Wedged demolition head provides up to 5X more destructive power than traditional designs.

Safer debris dispersion

Wedged demolition head makes demo jobs safer by throwing debris out to the sides, not back at the user.

Increased strike accuracy

Extra-large diameter driving head improves strike accuracy, ideal for driving stakes without mis-hits.
